

## MAGICO SCC centre speaker in MCast finish 22Hz-50kHz 89dB

MA 09 SC SCC CA

**NZ\$29,953.49** ea (incl. GST)

Movies place huge demands upon a loudspeaker, from alien invasions to a pin dropping, from a thunderous soundtrack to a gentle kiss - but the most important function is the accurate rendition of that most recognisable of sounds, the human voice, most of which is anchored in the middle of the screen.

Reflecting the versatility and exhilarating performance of its new S-Series of loudspeakers, Magico's SCC is designed to bring to the centre channel of the home theater experience the same level of resolution, clarity, and emotional engagement that Magico loudspeakers have been bringing to music lovers for the past 15 years.

This elegant loudspeaker builds on the foundation laid by the S5 and entry-level S1. In common with all Magico creations, the SCC has been designed using advanced computer-aided technology along with our own customised software to minimise diffraction effects and internal resonance, while determining the ideal damping requirements.

Meticulously crafted from 16-inch diameter extruded aluminium with half-inch thick walls similar to the S5, the curvilinear enclosure of the SCC provides the rigidity and mass necessary to ensure optimum performance from its four-driver, three-way acoustic suspension enclosure.

The driver complement consists of two newly-designed seven-inch woofers, Magico's famous proprietary five-inch Nano-Tec® midrange, and a Beryllium diaphragm tweeter.

### Specifications

Driver Complement:

1 x 1" MB30 Tweeter

1 x 6" M380 Midrange

2 x 7" M400 Bass woofer

Sensitivity: 89dB

Impedance: 4 Ohms  
Frequency Response: 22 Hz - 50 kHz  
Recommended Power: 50 watts  
Dimensions (w/ Stand): 50.54H x 58.42D x 64.77W cm  
Weight: 72.5 kg
